EDUCATION

2022 – 2026 – B.Tech in Computer Science & Engineering,

World College of Technology and Management

2022 – Class 12th,

Calorax Public School, Gujarat

2020 – Class 10th,

Calorax Public School, Gujarat

SUMMARY

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in software development, databases, and cloud technologies. Proficient in programming languages like Java, Python, and Kotlin with hands-on experience from academic projects and self-driven applications. Skilled in problem-solving, quick learning, and team collaboration with a keen interest in Android development, web technologies, and cloud-based applications. Seeking opportunities in Technical Support, Operations, Backend Process, Analyst, or IT-related roles where I can apply my technical knowledge, problem-solving, and communication skills in a confident way.

PROJECTS

- **AI Movie Recommendation System:** Built an AI-based recommendation engine using Python and ML algorithms that suggests movies based on user preferences and previous watch history.
- **Yapnit Talk App:** Designed and developed an Android chat application with Firebase backend integration, real-time messaging, and secure authentication features.
- **Restaurant Application System:** Created a restaurant management app with features like

menu browsing, order placement, and billing system using Java and Firebase.

SKILLS

- **Programming Languages:** Python, Kotlin, JavaScript
- **Mobile Development:** Android Studio
- **Databases:** MongoDB
- **Web Technologies:** HTML, CSS, JavaScript, React.js, Django Framework
- MS Office , Advanced Excel, Presentation
- Data Entry & Documentation
- MS Office- Excel
PowerPoint
Word

- **Student-Teacher Appointment System:**
Developed a system to manage student-teacher scheduling, appointment booking, and notifications to improve academic coordination.
- **Mummy AI Chatbot (RECENT):** Mummy AI Chatbot is a unique AI-powered assistant that combines smart responses with emotional interaction. Its Caring and Angry modes make conversations more engaging, realistic, and enjoyable for users.

CERTIFICATIONS

- iOS Application Development
- MS Office- basic-Advance Excel, Word, Power Point
- HTML Development
- Django Web Framework
- Tech Fest Participation
- MICROSOFT & SAP LANGUAGE

SOCIAL SKILLS

- Communication & Presentation
- Problem Solving
- Teamwork & Collaboration
- Adaptability
- Time Management
- Quick Learner

LANGUAGES KNOWN

- English
- Hindi
